# DO YOUR MASTERS MADE IN GERMANY

## SRH SCHOLARSHIPS FOR INDIAN STUDENTS 2019

India and Germany have close economic ties and share common goals: Fostering young talent, promoting renewable energies and acknowledging the importance of cyber security in today's connected global society.

These goals lay the foundation for many of the bilateral agreements between India and Germany and are of utmost importance for both countries to maintain long-term and sustainable growth.

To honour this bond between India and Germany, SRH Hochschule Berlin is launching a new scholarship scheme for Indian students who will start their Masters degree this upcoming March 2019 intake.

Our university is awarding a total of 10 merit-based scholarships for new students in the following programmes:

**M.Sc. Computer Science**  
Focus on Cyber Security

**M.Eng. Engineering and  
International Business**  
Focus on Renewable Energy,  
Water and Waste Management

Scholarship holders will benefit from a 50% reduction in their monthly tuition fees.

### HOW DO I APPLY

Apply for the M.Sc. Computer Science Focus on Cyber Security or the M.Eng. Engineering and International Business Focus on Renewable Energy, Water and Waste Management programme through our online application system by **30. November 2018**.

Send us a motivational letter explaining why you would like to study either of the above-mentioned programmes at SRH Hochschule Berlin in Germany.

You may add a one-minute (max.) video that demonstrates your motivation to study either Computer Science or Engineering and International Business. We are looking forward receiving your contribution!

**APPLY NOW BEFORE  
30. NOVEMBER 2018**
